Re: The Strand Condominiums at Riverplace

Dear Greg,

I wanted to thank Hunter-Davisson, Inc. for being an integral part in the design and construction of the mechanical systems for the Strand Condominiums. It was a pleasure working with you, your engineering staff and the crew. Your company has very high standards both internally and in the field. I appreciate your attention to detail both from a design and workmanship standpoint.

We are proud of our Design and Construction team and are very pleased with the results of this high profile project.

I especially want to thank you for the outstanding effort on your part to make sure your bids and quotes were thorough and complete. For a project of this size, it is refreshing to work with you and your team of professionals.

Thank you again, and I look forward to additional opportunities to work together in the future.

Sincerely,

David R. Lintz
Project Manager
The Strand
