RE: Letter of reference/recommendation for the FLIR project

Dear Mr. Campbell,

The purpose of this letter is to express our appreciation for the excellent level of service that we receive from your office.

The FLIR project was handled in a professional manor. The work was completed to the highest standards. Their people were professional and very helpful.

Through working on hundreds of projects over the years along with their knowledgeable staff, they have acquired a thorough understanding of design concepts that allows them to meet the performance requirements accurately and efficiently.

Because of Hunter Davisson's experience in the field, Neudorfer Engineers continuously recommends their services be used, as we know that we can rely on the accuracy and completeness of the information they provide.

Hunter Davisson is a professional company with a vast knowledge of design and code requirements and without a doubt has the ability to achieve the goal set before them.

Sincerely,

*Mike P Vawter P.E.*
