Mary's Woods ahead of schedule

Touted as well ahead of schedule, Mary's Woods at Marylhurst continues to progress on 28 acres of land facing Highway 43 near West Linn. Designed by architects Mithun of Seattle and under the direction of general contractor Andersen Construction Co. of Portland, the project is representative of a national trend in senior living. Expected to begin accommodating residents as early as April 2001, Mary's Woods will offer 226 independent living apartments and villas and 50 assisted living units. The project also contains 45 health care beds that offer a mix of skilled nursing and specialty care. In addition, Andersen Construction is renovating a circa-1910 on-site building that will provide apartments for project owner The Sisters of the Holy Names of Jesus and Mary.

Tunnel reopening reveals event frozen in time

The Associated Press

MOSIER — On his way home from a goose hunting trip, a snowstorm forced Charlie Sadilek to take refuge at the Mosier twin tunnels in the Columbia Gorge.

The Nebraska native and another stranded motorist spent nine days admiring the sheets of snow from their

The only evidence that remains of their stay decades ago is a carving on an inner wall of the tunnel that reads, "Snowbound, Nov. 19 to 27 — 1921, Chas J. Sadilek, E.B. Marvin." And, of course, the memories.

"My grandfather was very resourceful," Carolyn Forbes of Portland told The Oregonian newspaper. "And he was adventurous. I think the fact they stayed
